Ashlar-Vellum™ Releases Graphite™ version 8 Service Pack 4

March 7, 2013, Austin, TX. Ashlar-Vellum announces the release of Service Pack 4 for Graphite version 8, their 2D/3D wireframe drafting program.

Graphite v8 SP4 precision CAD software includes a number of resolutions and enhancements, including:

- An updated PDF export feature which includes bitmaps.
- An enhanced PDF export feature which optionally exports visible layers only or current sheet only.
- An updated Dimension Tool Palette resolving issues with macros and linear dimensions.
- No temp files in the drawing folder.
- An updated Save Palettes function that saves the screen position of the navigator palette.
- A new software installer preventing installation by non-administrators.
- Streamlined user registration giving customers a choice of online or USB key security.
- An enhancement that launches multiple .vc6 files within the same instance of Graphite when double clicking on a file icon.
- Improved flexibility within the Undo system regarding customized system configurations.
- A bug fix for Windows 7 that corrects the printing of duplicate pages.
- Code Signatures for both Apple and Microsoft operating systems for streamlined installation.

Service Pack 4 is a free update available to all those on Graphite v8, including Cobalt and Xenon v8 users with a courtesy license to Graphite. Upgrades are available from previous versions, with prices varying according to the age of the software.

About Ashlar-Vellum

Founded in 1988, Ashlar-Vellum is the leading provider of precision CAD and 3D modeling software that automates and simplifies the design process for drafting, design, and engineering professionals on both Macintosh and Windows platforms.
